PREFATORY NOTE

The present Catalogue of Officers and Graduates of COLUMBIA COLLEGE is the fourteenth which has been published. The first edition was issued in 1774. Subsequent editions were published in 1815, 1826, 1836, 1844, 1865, 1868, 1871, 1876, 1882, 1888, 1894, and 1900.

Since the last edition was issued, the Catalogue has been carefully revised and largely supplemented. The names of the graduates of the College of Physicians and Surgeons in the classes of 1811–1860 are included in this edition for the first time. The committee has communicated with all graduates of the University whose addresses could be ascertained, and every effort has been made to secure as complete returns as possible. Owing to the large number of new graduates (1901–1906) included in the volume, it has been found absolutely necessary to reduce the personal records to a minimum.

A brief historical note is prefixed, indicating in outline the constitutional history of the University. Instead of arranging the members of the teaching staff by departments, as was done in 1894 and 1900, an alphabetical list of all the officers appointed by the Trustees has been supplied, the complete academic record being added in each case. Furthermore, a list of the instructors of professorial rank, arranged chronologically by departments of instruction, is included. The recipients of the several higher degrees (A.M., LL.M., L.H.D., and Ph.D.) have been inserted under the respective degree conferred, and the new arrangement will no doubt prove more convenient than the old.

The Locality Index, containing the names of graduates grouped by countries, states and cities, will serve to acquaint graduates with the names of fellow alumni residing in their immediate neighborhood, and it is hoped that it may be found useful by the secretaries of the various local alumni associations and that it may lead to the formation of new organizations.

Notwithstanding the efforts made to supply the deficiencies of former publications, imperfections will doubtless be detected in the present edition, and this note can not be better concluded than by once more repeating the request made on former occasions, that every graduate will communicate to the "Committee on the General Catalogue," at the University, any information which will serve to render future editions more accurate and valuable.

OFFICERS OF INSTRUCTION AND ADMINISTRATION

The following list includes in alphabetical order the names of all persons appointed by the Trustees since the foundation of King's College in 1754. The record includes only those professorial appointments in the College of Physicians and Surgeons, Barnard College, Teachers College, and the College of Pharmacy in effect during the period of union with Columbia Unveirsity. Furthermore, as the junior officers in Teachers College and the College of Pharmacy and the clinical assistants at the College of Physicians and Surgeons are not appointed by the Trustees of Columbia College, their names and records do not appear in the list. In the case of those officers who hold degrees from this institution, the first degree only will be indicated, further information being available later in the volume under the course and year to which reference is thus made. In the case of officers who do not hold Columbia degrees, the academic records are given here in so far as possible. In many cases, however, the Committee has been unable to obtain this information, and it is requested that any further details which may be known to readers of the volume be forwarded to the Committee.

Preceding the alphabetical list will be found a list of the Professorships in the order of their establishment, and following it will be found, under each department of instruction and administration appearing in the Budget of the University for 1906–07, a list in chronological order of the officers of professorial grade holding positions which today would be classified under that department. Those who are interested in the historical development of the several professorial chairs and departments of instruction should consult also the General Catalogue, edition of 1900, in which there is a separate historical record for each grade of instruction and for each professorship. Considerations of space have, unfortunately, rendered it impossible to reproduce the record in full in the present volume.

The abbreviations used are as follows :

Asst, Assistant	*Adj.*, Adjunct
Lect., Lecturer	*Res.*, Resigned
Instr., Instructor	*Ret.*, Retired (term expired)
Demonstr., Demonstrator	*Emer.*, Emeritus

The present system of academic grades was adopted in December, 1890. Previously the terms Assistant, Tutor, Lecturer, and Instructor, were used more or less interchangeably.

Total 1222

Professors, Adjunct Professors, and Officers of Administration

The following tables give the departments of instruction for which provision is made in the University at the present time (July, 1906), and in each department the list of the officers of professorial rank who have given instruction in subjects within the field of the department as at present organized, from the foundation of King's College in 1754. Under each department the names are arranged in chronological order as far as possible. In the classification, which up to 1857 has necessarily been somewhat arbitrary, Belles Lettres has been identified with English, Natural History with Botany and Zoology, Natural Law, and Natural and Revealed Religion with Philosophy, Natural Philosophy with Physics. Subjects offered only incidentally are not included. The exact title of each professor and the date of his appointment and its duration will be found in the alphabetical list of officers (see pp. 28 to 67). In the case of professors in the College of Physicians and Surgeons, Barnard College, Teachers College, and the College of Pharmacy, the record includes only those appointments in effect during the period of union with the University. At the end of the section will be found a list of subjects heretofore offered for which no provision is now made.

LOCALITY INDEX

The several schools are designated by italic letters prefixed to the year of graduation, as follows:

a	Columbia College	*t*	Teachers College
b	Barnard College	*ph*	College of Pharmacy
m	School of Medicine	*A.M.*	Master of Arts
l	School of Law	*LL.M.*	Doctor of Laws
s	Schools of Applied Science	*L.H.D.*	Master of Letters
f	School of Architecture (Fine Arts)	*Ph.D.*	Doctor of Philosophy

The following index contains the names of all living graduates whose addresses have been ascertained, arranged in geographical order. The names of the alumnæ are printed in italics, and in the case of married women only the married name is given. In a few instances it was possible to insert a later address in the locality index than appears in the body of the Catalogue, and this index should, therefore, be given the preference wherever an apparent discrepancy between the two sections of the Catalogue is found. A list of the foreign countries represented in this index follows:
